Achelous, the River God

In the past, The Marvel-Phile was one of the best resources for new and updated information pertaining to the Marvel Super Heroes Role-Playing Game. We are hoping to continue that fine tradition with the "New Marvel-Phile". While we are certain that each edition will bring something new and exciting for those that still enjoy this great game. We are still not 100% on the format that we will be using. What is coming down the line in the future is still up in the air. Let us know if you like what we are doing here, or if you want to see something different. Requests are also welcome, but please bear in mind, that we cannot possibly accommodate all requests. However we are hoping that this new format will be for the better, as in our opinion provides more options to our gamers.

The subject of this first edition is Achelous, the brutish Olympian river god and opponent of the Hero Hercules and later Wolverine. Achelous can serve many roles in your campaign. Rampaging monster, calculating, vengeful enemy, assassin, or simply muscle on a villain team. He can play many roles.

Please enjoy and feel free to give us feedback.

ADDITIONAL NOTES:

shattered Achelous' right horn. His enmity toward Hercules intensifying in the ensuing centuries, Achelous entered the service of Hercules' estranged cousin and bitter rival Eurystheus in recent years. The former King of Mycenae, Eurystheus, had been granted immortality and empowered by Hera to orchestrate Hercules' destruction, and, working with Achelous, persuaded Hercules to partake in modern-day versions of his legendary Twelve Labors, broadcast on television. When Hercules unexpectedly survived these "New Labors", Achelous and Eurystheus attempted to kill him themselves, but Achelous was inadvertently impaled on Eurystheus' sword while Eurystheus was gored by Achelous' horn. Eurystheus staggered into a wall causing a mounted shield to fall and decapitate him. Achelous and the bodyless Eurystheus travel the world seeking new ways to exact vengeance upon Hercules.

ROLE-PLAYING NOTES

Achelous is a brute, and a brawler. He is known to hold grudges and can be both rash or calculating in exacting his revenge, but make no mistake, revenge is something that he won't forget. While not very smart, he can be cunning. Deceit and ambush, are not out of the question.

HISTORY: The son of the primordial sea Titans Oceanus and Tethys, Achelous was the chief river god. Circa 1260 BC, he traveled to Calydon to seek the hand of mortal Deianira, the beautiful daughter of King Oeneus and Queen Althaea. Finding Deianira was also pursued by and preferred Hercules, Achelous challenged him for Deianira's hand in marriage. Their battle ended when Achelous transformed into a bull and charged Hercules, who avoided the attack and
